

AMENDMENTS TO THE SPECIFICATION

Please replace paragraph 0084 with the following amended paragraph:

[0084] The light blocking layer 802 is prevented from being damaged since following etching and cleaning processes are performed after it is covered with the passivation layer 180. The covering of the light blocking layer 802 also prevents the organic of the ~~light blocking~~ passivation layer 180 from contaminating liquid crystal when the alignment layer is damaged to be stripped.
